DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Chan et al (Chan).

Chan's Fig. 1 illustrates a matrix calculator that multiplies two matrices (A and B) and that includes an element selecting portion (e.g. multiplexers 114, 115 and 210), a calculating portion (e.g. multiplier 2 and accumulator 3), a storing portion (e.g. third memory 30) and a control signal generating portion (e.g. the means that generates the control signals $C_1 - C_9$).

Allowable Subject Matter

3. Claims 2-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Drawings

4. Figs 1 and 2 are required to be labeled "Prior Art".

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
